

DO YOU KNOW WHAT'S IN YOUR DRINK?

- Alcohol is the number 1 date rape drug but other drugs can be slipped into a drink
- Often these drugs are tasteless, colorless and odorless
 - Signs can be: dizziness, confusion, sleepiness, forgetfulness, impaired mobility, blackouts
 - These drugs can even cause coma or death
- If someone is drunk or drugged they can't consent
 - Sex without consent is sexual assault
- If you have been sexually assaulted it isn't your fault
